MACKENZIE

Featuring three luxurious master bedroom suites, a huge dining room, a large kitchen with a walk-in pantry and plenty of covered deck space, the Mackenzie has been designed specifically as a vacation home for two families to share, or as a family home with room enough for all of your friends and relatives.

A breathtaking example of hand-crafted log home construction, the Mackenzie features a spectacular 30 ft. high Great Room, oversized windows throughout the entire home, and meticulously detailed logwork and trusses – you'll never cease to be impressed by the sheer magnificence of this home.

If you're looking for comfort, the Mackenzie delivers, as the master bedroom suites all feature a fireplace, double sinks, walk-in showers and soaker tubs. The suite on the main floor even includes access to an exterior deck with a built-in spa – just one of the many pleasing amenities you'll find in this home.
