ALGONQUIN

If you're looking for an absolutely beautiful log home designed for entertaining and hosting a large number of people, you'll love the charm and sophistication of the Algonquin.

From the large country kitchen, that includes a central island, walk-in pantry and breakfast bar, to the 1,700 square feet of exterior deck space to the spacious three-car garage, there's more than enough room for your entire family – and most of your friends, too – in this gorgeous ranch bungalow style log home.

Your guests will be amazed by the expansive cathedral ceiling, stunning French doors, large stone fireplace and elegant curved balcony of the Great Room. And you'll be living a life of comfort in one of the two master bedroom suites, which both feature a fireplace, large walk-in closet, and attached four-piece master bath.

Also featuring a cozy breakfast nook and private study, the Algonquin is a great choice for either a luxurious primary residence or a spacious vacation home.
